CSET 485: Self-Learning Assignment
10 Marks

1. Assignment Overview

This is an individual written assessment designed to evaluate your critical thinking, ethical reasoning, and ability to construct well-reasoned arguments about Artificial Intelligence and its impact on society.

You will research, analyze, and write a comprehensive report on your assigned topic, presenting both supporting and opposing viewpoints before concluding with your justified position.

2. Find Your Assigned Topic

Your assigned topic number is in the Excel file:

https://bennettu-my.sharepoint.com/:x:/g/personal/pulkit_dwivedi_bennett_edu_in/IQC94Gq6T-SiSb3lS98rJ8qnAdrJ7zZ9SsDhFT3fuEDZgoM?e=6IwQpz

Search for your Roll Number and find your corresponding Topic Number. Use that topic number to identify your topic from the list at the end of this document.

3. Report Requirements

Length: 3–4 pages (maximum)

4. Mandatory Report Structure

1. Title
2. Introduction (problem context and relevance)
3. Arguments in Favor
4. Counter-Arguments (Against the Topic)
5. Critical Discussion: Analyze both sides. Discuss strengths and weaknesses. What are the real-world implications?
6. Conclusion (Your Justified Position): State your position clearly. Why do you agree or disagree? Back it up with logic and evidence from your discussion.
7. References: List all sources you cited.

Submission Deadline: 5 October 2026, 23:59 IST

5. Topics (Find Yours Using the Excel File)

Topic Number	Topic Title
1	Will Artificial Intelligence Create More Jobs Than It Destroys?
2	Is AI Making Humans Intellectually Lazy and Reducing Critical Thinking?
3	Does the Use of AI Enhance or Harm Student Creativity?
4	AI in Healthcare: Is It More Reliable Than Human Doctors?
5	Automation vs Human Judgment: Who Should Make High-Stake Decisions?
6	Should Governments Strictly Regulate Artificial Intelligence?
7	Is Reskilling Alone Sufficient to Address AI-Driven Job Loss?
8	Does Data Matter More Than Algorithms in the Success of AI Systems?
9	Bias in AI: Is It a Technical Flaw or a Reflection of Society?
10	Is AI-Based Surveillance Justified for Public Safety?
11	Is Explainable AI Necessary or Overrated?
12	Should AI Systems Be Legally Accountable for Their Decisions?
13	Does AI Reduce Human Autonomy in Decision-Making?
14	Can Artificial Intelligence Be Truly Ethical Without Human Values?
15	Is AI a Tool for Social Inclusion or a Driver of Inequality?
